

- In **Prepend**, the plot for vector grows **exponentially** while time taken for linked list is negligible

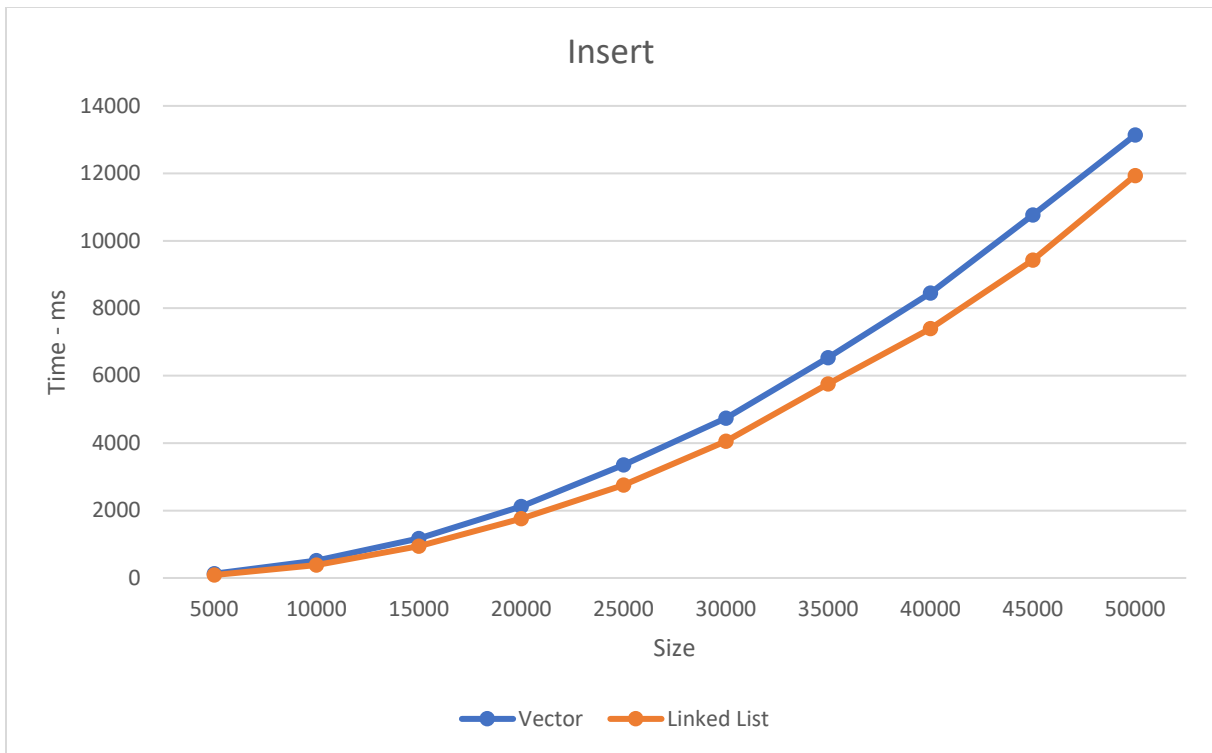

- In **Append**, the plot for both vector and linked list grows **linearly**

- In **Get**, the plot for Linked List grows **linearly** while time taken for vector is negligible

- In **Remove**, the plot for Linked List grows **exponentially** while vector turns to be linear

- In **Insert**, the plot for both vector and linked list grows **exponentially**
